

Florida **VPK**

☀️ **Love working with 4-year-olds?**

☀️ **Interested in finding out how to become a Voluntary Prekindergarten (VPK) provider?**

VPK presents each child the opportunity to perform better in school and throughout life with quality programs that include age-appropriate curricula and emphasize early literacy skills.

There is still an opportunity for your child care program or public school to offer a 2021-22 school year, 540-hour VPK program. More information is available by contacting your local early learning coalition.
